Dear Dr. Henney:

We are in favor of the FDA PROMPTLY approving claims filed for saw palmetto and the symptoms of benign prostate hyperplasia; phylum husk seeds and the risk of heart disease; folic acid, vitamin B6 and vitamin B12 and cardiovascular disease; and vitamin E and the risk of cardiovascular disease.

We the public need proper information concerning the potential benefits of these nutraceuticals as well as other natural elements. PLEASE help us.

Sincerely,

John Jarem and Sarah M. Jarem
